Name of person in charge of data management: _____

Permission to use personal data for European funded research project work of I AM RRI

Name: _____

Address: _____

Organization: _____

Event for signing the consent form: _____

The protection of the natural persons in relation to the processing of personal data according to Regulation EU 2016/675 is a high priority of the I AM RRI project consortium.

The I AM RRI project is a European funded research project aiming to model the webs of innovation value chains of additive manufacturing under consideration of aspects of responsible research and innovation (RRI). For the project depending on the project activities personal data, like name, contact address, age, gender, education, job experience and function, organization will be collected when performing the following research activities. At stakeholder workshop and the future conference photos might be taken.

Further information to the I AM RRI project and the Data Management Protocol on Personal Data can be found on www.IAMRRI.eu.

Following data will be collected and processed: name, contact address, organization, age, gender, education, job experience and function

Purpose of data use

During the project, the personal data will anonymized, so that no relation between name and other personal data sets can be established, these anonymized data will be processed relating to the purpose of research, project dissemination and reporting to the EC:

- Communication within the project consortium on the preparation and performing of interviews, workshops and invitation to the future conference or general project information; (nonpublic)
- Reporting on project progress to the European Commission (nonpublic)

Processing of data includes the following steps

- Collecting data
- Anonymization of data sets
- Saving the anonymized data on project partner project safe server
- Exchanging data within the consortium, including data transfer to Norwegian project partners for testing and improving the model for web of innovation value chains.
- The personal data will be deleted automatically half a year after the project is approved by the EC.

I herewith declare my consent to the use of my personal data as described.
